

# Seizing the Opportunity: Cultivating Resilience and Innovation

Alliance for Rights and Recovery 20th Annual Executive Seminar

Join us at the Alliance for Rights and Recovery 20th Annual Executive Seminar, "Seizing the Opportunity: Cultivating Resilience and Innovation," on April 25-26, 2024 at the Downtown Albany Hilton. Our program will feature a rich array of timely presentations that will take a deep dive into some of the challenges we face today and identify tactics that will promote resilience and innovation through the application of a Growth Mindset. Embracing a growth mindset means seeing challenges as opportunities for growth, persisting in the face of setbacks, and viewing effort as the pathway to mastery.

This mindset has proven to be a game-changer in addressing major obstacles, fostering innovation, and propelling organizations forward. Join us as we explore how a growth mindset has been successfully applied to overcome significant challenges, drive resilience, and inspire innovation in our field. It will offer new information and expert analysis on the state's 1115 Medicaid Waiver and promote strategies to advance the transformational impact of peer support, address social disparities and promote organizational health.

Join us as we come together to inspire hope and embrace growth in our ever-evolving landscape.
